Term and Conditions

Please read this Terms & Conditions before creating an Internet Account.

The Internet onboard is provided by a satellite connection which directly affects the speed and bandwidth. Applications that require a dedicated connection and heavy bandwidth are not supported. This includes, but is not limited to, FaceTime, Skype, Viber, MagicJack, VPN or Remote Desktop. We advise our guests to test their e-mails, websites and applications using the Per-Minute rate before purchasing any package.

Some e-mail providers, such as Hotmail, Yahoo, AOL, or Gmail, may require a "2-Step Verification" process for you to access your e-mail. This enhanced security system is established by your e-mail provider, not by Celebrity Cruises. Your e-mail provider may require you to enter some extra information, such as verification codes or answers to security questions. In order for you to gain access to your e-mail account.

Celebrity Cruises® will not be held accountable for your Internet services, applications or e-mails which are not supported and cannot be held responsible for inaccessible e-mail accounts due to service providers requiring additional security verification.

Slow loading times are still charged at the rate that you select and usage is at your own discretion.

Turning the Wi-Fi off or shutting down your device will not stop your Internet session. Guests are responsible for the charges that are incurred.

Internet packages are valid for the current cruise only and will expire on the morning of debarkation at approximately 7:00am.

Internet packages and unused minutes are not refundable.
